

#107016

Bottom view of Xover Floor Tool.

Xover Productivity

- Designed for the every day user.
- 44% more effective than the standard industry tool.
- Better efficiency and performance compared to the E-Z Glide®.
- Shoe brush provides the carpet agitation for enhanced soil removal.
- The front edge of the shoe has more contact with the carpet, therefore it is easier to maneuver.

- 14-inch multi-surface tools with even airflow across the width of the tool for use on both carpet and durable hard surfaces.
- Improved suction performance.
- Larger mouth opening picks up large debris.
- Scrubber feature enables the user to better agitate a dry spot on the floor.
- A new design allows air to move more easily through the tool, creating less drag.

Looking for a tool to achieve highest certification and advanced soil removal?
