PROOF POSITIVE

Lyle Herrera, Maintenance Director, St. John the Baptist Catholic Church and School in Longmont, CO

"We wanted the backpack vacuum because it was so much more convenient for our staff. It saves a lot of time, especially in classrooms where there are a lot of chairs and desks, or in the sanctuary between pews. Our cleaning staff can get into tighter areas and get underneath and around furniture without moving it. Everything's much easier."

Brian Andrews, Maintenance Supervisor, LIFE Fellowship Church in Westminster, CO

"We used to buy the cheapest disposable vacuums at Walmart for 70 dollars. I can see a huge difference in how much the ProTeam vacuum picks up. Some of the staff were concerned about discomfort from wearing the backpack, but after they tried it there was no concern. The Super QuarterVac is so small and lightweight, everyone really loves it. Once our cleaning staff learned how to use the vacuum with a sweeping motion, they cleaned a lot faster. It is easier to clean large areas. We have saved money in time spent cleaning and in bag replacements in just the first few months of using a ProTeam Vacuum."
