

February 2017

Dear Valued ProTeam Customer,

Thank you for your recent purchase of our GoFree® Flex Pro battery backpack vacuum and/or battery. Please be advised that the lithium ion battery included – at its volt and amperage configuration and size – is considered Class 9 hazardous material by U.S. carriers, requiring special labeling and package handling. The lithium ion battery cannot ship on a common carrier (LTL or small package) unless it is properly prepared by trained personnel.

Attached is the Safety Data Sheet (SDS) for the battery product. Please forward this letter and SDS to the appropriate people and department within your company.

If you have any questions, please contact ProTeam Customer Service at [customerservice.proteam@emerson.com](mailto:customerservice.proteam@emerson.com) or 866-888-2168.

Thank you again for your interest in our products. We appreciate your business and support.

Regards,

ProTeam Customer Service
