Orders for these items will be fulfilled from inventory in Bolton with a standard 3-business day lead time or better. Orders for all other items – and very large quantity orders of the above items – will continue to be fulfilled through the existing warehouse replenishment and cross-docking program, with ProTeam handling all customs and brokerage into our Canadian warehouse.

For your convenience, please continue to submit purchase orders to ProTeam Customer Service as you have been. Where applicable, we may split your order (one for stocked items, the 2nd for cross-docking items) to ensure fastest delivery on the items above. Standard freight terms will apply to your single purchase order shipping to a single location (regardless of how the order may be split for processing).

We appreciate your business and support, and for urgent needs going forward, please consider ordering products stocked in Canada.

Best regards,

Marvin Mauer
