

# CORDLESS CLEANING GO ANYWHERE

## PRODUCTIVITY

Give the user the most efficiency and cordless freedom with the industry leading runtime and no time wasted managing cords.

## LABOR SAVINGS

30% More Productive. Given a \$13/hr average wage, save \$27K/yr for every 100,000 sq. ft. using a cordless upright or save \$87,688/yr using a cordless backpack.

## SAFETY AND TRIPPING HAZARDS

Eliminate safety and tripping concerns when you go cordless. Clean anytime, anywhere, without safety concerns.

### FreeFlex® Cordless

#### ADVANCED BATTERY TECHNOLOGY

Lithium Ion battery provides approximately 72 minutes of continuous cleaning with 93 minutes to bring back to full charge and up to 850 charge cycles.

#### FLEXIBLE POWER / HYBRID

The cleaner has the option to go cordless or plug into an outlet when needed.

#### LIGHTWEIGHT

Weighs only 17.6 pounds with battery which means it's comfortable and easy to maneuver.

#### READY TO OPERATE

With no tools required to assemble, this upright is ready to use out of the box.

#### LOW PROFILE

Compact design lays flat to clean under furniture and around obstacles.

#### ANIMATED DASHBOARD

Display shows when the vacuum is operating normally, alerts the user to a brush roll jam and battery charge level.

#### IMPROVE INDOOR AIR QUALITY

Capture and contain dust in the four-layer synthetic cloth filter that resists rips and punctures.

### GoFree® Flex Pro II

#### BOOST PRODUCTIVITY

A cordless backpack vacuum cleans 30% faster than a standard backpack and 5 times faster than an upright.

#### SAFETY

Reduce tripping hazards by removing the cord for safer vacuuming around busy lobbies and occupants.

#### LIGHTWEIGHT

With a new efficient motor the unit weighs only 17.5 lbs. (12 Ah) or 15.5 lbs. (6 Ah), which means it's more comfortable and easy to maneuver.

#### HIGH/LOW POWER SWITCH

Conserve runtime by tackling routine cleaning on low, then switch to high for deep cleaning.

#### CORDLESS CONVENIENCE

Move freely without the restriction of a cord and eliminate cord management tasks.

#### FREEDOM OF MOVEMENT

Articulating FlexFit® harness responds to the motion of the user's shoulders, back and hips—increasing comfort and reducing fatigue.

#### BRUSHLESS MOTOR

With no carbon brushes to change, the motor has a longer life and emits no carbon dust.
