

# Surviving Budget Cuts & Cleaning More

Higher Education

 **ProTeam**®

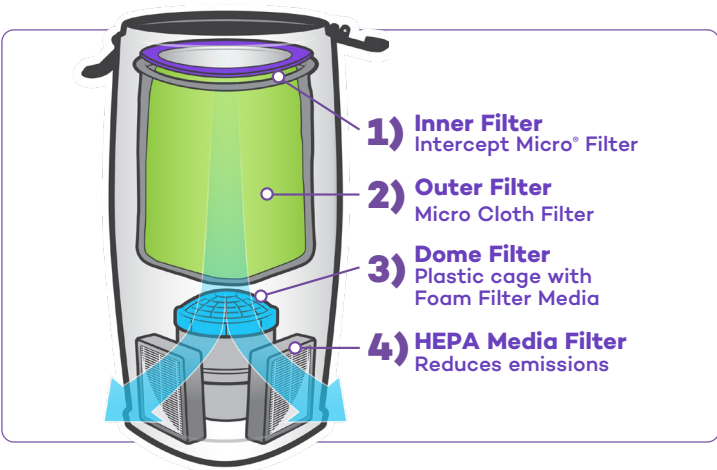

# Does your cleaning routine save you time & money?

The appearance of a clean environment often strongly impacts public perception of an educational institution and is usually an essential component of a healthy learning space. Additionally, removing germs and bacteria can decrease student and faculty absences while increasing education.

ProTeam offers the right tools for the right job, with quiet, versatile, compact, easy-to-maneuver vacuums featuring powerful and advanced filtration. Our ProLevel Filtration® System helps decrease allergy and asthma triggers in indoor environments by capturing and containing harmful particulate.

## Cleaning for Health® With ProTeam Vacuums

In this industry, many clean for appearance alone, ignoring microscopic particles that can harm health. When we vacuum buildings intending to remove potentially damaging molecules, we improve the overall wellness of the occupants.

A review by Carnegie Mellon of five separate studies evaluating the impact of improved indoor air quality on asthma found an average **reduction of 38.5%** in asthma in buildings with improved air quality.

# Backpack Vacuuming is Faster.

ProTeam backpack vacuums clean 3X faster than commercial uprights and cordless backpack vacuums clean 5X faster.

## Productivity Savings to Vacuum 100K Sq. Ft.

PROTEAM VACUUM ROI ANALYSIS	VACUUM TYPE	SQ. FT. PER HOUR	DAILY LABOR COST*	MONTHLY LABOR COST	ANNUAL LABOR COST
<b>100,000 sq. ft. Facility</b> Annual Savings using a ProTeam Cordless Backpack* versus a 14" Upright:  <b>\$87,688 / 73%</b>	14" Upright	2,857	\$455	\$10,000	\$120,120
	ProTeam Backpack w/14" Tool	7,407	\$175.50	\$3,861	\$46,332
	ProTeam Cordless Backpack w/14" Tool	10,582	\$122.85	\$2,703	\$32,432

# Experience High Performance

## Discover the Newest in Backpack Vacuum Technology

Introducing the new ProTeam GoFit Series by Emerson — a lineup of vacuums maximizing your comfort and productivity. Available in four different sizes, an optimized quick-adjust harness system, advanced filtration and simplified fleet management, we engineered the GoFit Series to improve your cleaning efficiency and productivity.

## The Perfect Fit

The GoFit Series provides customized comfort for everybody and it's as easy as 1, 2, 3, 4. No tools required!

1

**Step it up.** Adjustable upper harness for customized balance and fit.

4

**Buckle up, turn on.** Clip in, hit the switch and get your clean on.

2

**Belt it out.** Supremely comfortable waist belt for a tailored fit.

3

**Strap in.** Turn comfort up a notch with fully adjustable shoulder straps.

# Weber State University Goes Cordless with GoFree Flex Pro

In the year since Custodial Manager Miguel Lopez shifted his vacuum fleet to GoFree Flex Pro cordless backpack vacuums, he can point out the best reason to go cordless. "Efficiency is number one."

 **27,000**  
students

"In addition to administrative and faculty offices, we have classrooms, labs, break rooms, conference rooms, study spaces, a gallery, a library," says Lopez. "The scheduling is pretty tight, we have to plan around the classroom schedules, which start at 7 am and continue into the night. So a lot has to get done before 7 am or after 10 pm"

 **2,000,000**  
square feet

We have 65 ProTeam battery-powered backpack vacuums," Lopez explains.

 **workers**  
**50 full-time**  
**112 part-time**

**"With these, you don't have to worry about plugging and unplugging the vacuum. That saves a lot of time."**

Lopez's cordless fleet fits into a larger, time-tested efficiency strategy, Team Cleaning®.

Each member in a Team Cleaning system specializes in a focused set of tasks, and coordinates their efforts to maximize efficiency and productivity. "We implemented Team Cleaning about 6 years ago," says Lopez. "And we have refresher training every year. Team Cleaning is the very best system we've used."

Lopez has been able to take full advantage of the Team Cleaning method, using the time saved by his cordless vacuums for other tasks.

**"We could allocate more time to detailed cleaning, high and low dusting, window cleaning. Wherever we need it the most."**
