DUSTING KIT
EXPAND YOUR REACH.
Because real cleaning doesn't stop at the floor.
ProTeam

Clean smarter from the ground up.

Dust and debris do not stop at floor level. Vents, ductwork, ledges, light fixtures, and other elevated surfaces can collect buildup that impacts the appearance and cleanliness of a facility. GoHigh Dusting Kits extend the capability of ProTeam corded backpack vacuums so teams can address above-the-floor cleaning from the ground. Lightweight poles and specialized tools help crews clean high areas more consistently, reduce the need for ladders or lifts while improving indoor air quality (IAQ).

Clean more. Climb less.

Improve productivity by cleaning more in less time without ladders, lifts, or unnecessary workflow interruptions.

2

Convenient kit options.

Choose the reach and tool set that best fits your facility. Each GoHigh kit includes carbon fiber extension poles and specialized accessories for cleaning vents, corners, fixtures, ledges, and other overhead surfaces. Angled bends improve tool positioning, while the carry/storage bag keeps components organized.

52

Every week. No rentals necessary.

Turn high dusting into routine maintenance with ground-level reach that helps reduce lift rentals, limit dust buildup, and make it easier to support cleaner, healthier indoor environments.

More reach. More results.

OVER 26'

Maximum reach. Minimum hassle.

GoHigh Max Kit extends your reach up to 26' 9" to clean high, hard-to-reach places while keeping teams safely on the ground.

50%

Half the weight. Less fatigue.

Carbon fiber construction is nearly half the weight of aluminum, helping improve ergonomics and reduce strain.

1

Easy-to-use tool.

Seamlessly pairs with ProTeam corded backpack vacuums for maximum cleaning productivity.

Two ways to EXPAND YOUR REACH.

Whether your facility needs routine reach for everyday high-dusting tasks or maximum extension for larger open areas, GoHigh offers two kit options designed to match the way your team cleans. Both kits connect with ProTeam corded backpack vacuums to extend cleaning capability above the floor and help teams address more surfaces with less disruption.

REACH UP TO 13'9"

#107851 GoHigh STANDARD 13' Kit

Ideal for routine high dusting in classrooms, offices, lobbies, and corridors. The Standard Kit provides an additional 13' 9" of reach and includes essential tools for cleaning vents, fixtures, ledges, and other above-the-floor surfaces. Includes 3 carbon fiber poles, 135-degree bend, pipe tool, round dust brush, ProBlade® and adapter, and carry/storage bag.

REACH UP TO 26'9"

#107852 GoHigh MAX 26' Kit

Designed for larger facilities and higher overhead spaces such as exposed ceilings, gymnasiums, multi-story entrances, atriums, and large open areas. This kit provides up to 26' 9" of reach and includes 6 carbon fiber poles, 45- and 135-degree bends, pipe tool, round dust brush, and carry/storage bag.

OPTIONAL #850575 90-DEGREE BEND

Reach overhead platforms, ledges and other elevated horizontal surfaces with ease.
